

## **Consent to Treatment at Dental Clinique**

*Your Rights and Our Responsibilities*

### **Informed Consent**

Before we begin any treatment, we ensure that you are fully informed about what the procedure involves, including the benefits, risks, and alternative options available. Our team is here to answer any questions you may have.

### **Written and Verbal Consent**

Depending on the treatment, we may ask for your verbal consent or provide a written consent form for you to sign. This ensures that you understand the treatment plan and are happy to proceed.

### **Consent for Children and Vulnerable Adults**

For patients under the age of 18 or those who cannot legally provide consent, a parent, guardian, or legally authorised representative must give consent on their behalf. We handle these situations with care and sensitivity.

### **Right to Refuse or Withdraw Consent**

You have the right to refuse treatment or withdraw your consent at any time, even after signing a form. We will respect your decision and provide alternative options where possible.

### **Language and Understanding**

If English is not your first language, we can provide interpreters or translated information. We want to make sure you fully understand before giving your consent.

### **Have Questions About Consent?**

Our team is always available to explain procedures and answer your questions. Please don't hesitate to contact us.
